

## **R E M A R K S**

### **Drawings**

Two sheets of replacement drawings embodying Figs. 1 and 2 accompany this paper, which include the notation "Prior Art," as requested by the examiner.

### **Claim Objections**

To address objections due to informalities, applicants have amended all claims to enclose the reference characters in parentheses.

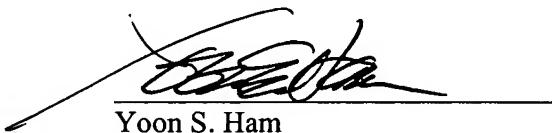

### **Rejection Under 35 USC §112, Second Paragraph**

The examiner rejected claims 1-5 as being indefinite for reason that the phrases "a bulb BULB" and "A CF lamp" are unclear. In reply, applicants have clarified the phrases by designating this element as "lamp" or "plurality of lamps" in the amended claims. Other editorial amendments were also made to the claims.

### **Conclusion**

All objections being overcome, applicants respectfully request reconsideration and allowance of the claims.

Respectfully submitted,
